

STRUCTURE

The Qualicoat label was first introduced in Europe in the late 1980's and has since spread to more than 20 countries, including Italy, Germany, France, Great Britain, Chile, Egypt, Singapore and Saudi Arabia.

A governing body in Zurich controls Qualicoat internationally, with exclusive authority to approve the standard throughout the world. Qualicoat licences are negotiated through individual industry bodies.

In Australia, Qualicoat is administered through the Qualicoat Division of the Australasian Institute of Surface Finishing (AISF).

Inspections are undertaken by Azuma Design, which is a National Association of Testing Authorities (NATA) approved laboratory and an Iso 9001-2000 quality endorsed company.

Qualicoat supports the Australian Window Association (AWA), and shares its objective of industry-wide compliance to Australian Standards through third party accreditation. Qualicoat-approved applicators provide a seven year warranty to their customers, a requirement of the Building Code of Australia.

Qualicoat is not just an association of applicators or a standard, but a strictly monitored quality system ensuring compliance from all approved applicators.

ENDORSEMENTS

“Qualicoat will provide the industry with a degree of certainty that has been lacking in the architectural application of powder coated aluminium’

BILL WYLLIE
Qualicoat President

“The AWA congratulates the coaters and powder companies for this major advance in bringing the world's best practice to aluminium finishing and for supporting window manufacturers' seven-year guarantees.”

IAN FRAME
Australian Window Association Executive Director

“Architects are looking for premium quality standards for all product specifications, and that's why they will embrace Qualicoat.”

COLIN BREWSTER
Foundation Member and Past President of Qualicoat

“Qualicoat certification is proof that all relevant Australian standards have been met, an advantage for home owners, fabricators, suppliers and the industry. We're committed to promoting the benefits of third party accreditation, while raising the profile of powder coating in Australia.”

ALLY CRONAN
